Hello Gina and Sam--I'm away on unexpected family travel thru Monday evening. I expect to be back in the office on Tuesday. Here are a few items I hope you can take care of on Monday.

IRIS Mgmt Council: Attached is the 6-month outlook for the meetings with Kavlock/Fritz the first week of January. Please forward it to the Mgmt Council so they can buy into the dates we're projecting. (I took the dates from the QMB schedule that Sue sent me last week.)

Ex. 5 Deliberative Process (DP)

Please let Andrew know on Monday, perhaps at the IRIS division mgmt meeting that I will miss. I expect to attend the phthalate team meeting on Tuesday and will let them know that we need drafts quickly.

Arsenic: Attached is an outline that I developed in response to a message from Janice last week.

Sam: Please look over my arsenic outline, revise it as you see fit, and send it to the arsenic team on my behalf. Thanks!

Thanks! I expect to see you all on Tuesday.
